

Eat Less Salt

(sodium)

One in four South Carolina adults has high blood pressure.

You may be at risk for high blood pressure if you:

- Have a history of the disease
- Are overweight
- Eat a high salt diet

Ideas to Lower Your Risk

- ♥ Try to buy more fresh or frozen foods and less processed foods.
- ♥ Try to buy fewer foods that have salt or sodium listed on the Nutrition Facts label.
- ♥ Try flavoring your foods with lemon juice, garlic powder, pepper, dry mustard, oregano, dill, cinnamon, chili powder or a spice blend instead of salt.

**Did you know these foods
are high in salt?**

Eat less of them.

- ♡ Canned foods
- ♡ Cured and processed meats
like hot dogs, sausage, and
luncheon meats
- ♡ Fast foods, microwave dinners,
and frozen foods with added
sauces and toppings
- ♡ Cheese
- ♡ Salted chips and snack foods
